

The Australian International School co-ordinates a bus service for the convenience of families whose children attend the School. The School provides small buses fitted with seat belts and drivers have been instructed not to proceed until all students have been "belted in". Adult chaperones travel in each School bus.

Drivers are instructed to wear seat belts at all times. They are trained in safety procedures to take in the event of an accident or other emergency situations, and have also been trained in basic first aid. First Aid kits are carried on all the buses.

All drivers comply with the School's "No Smoking" policy.

While every effort has been made to accommodate students, this service is made available at the School's discretion. No afternoon bus service is provided to students who choose to participate in after-school activities unless the student resides in the local Kemang or Pejaten areas. Students are expected to behave appropriately on the buses and in the event of continued misbehaviour, access to the service will be withdrawn.

Parents are advised that legal liability does not extend to students in transit to and from the School.
